

June Rise Contest Winners Announced!

It's been a *long* wait and everyone has watched the river for weeks...but the results are finally in. The highest flow at the Canyon Mouth during the contest period of May 15 through June 30 was measured at **3460 cfs** and occurred on **Thursday, June 30th at 7:30am!** Prizes were given out 7/5/2011 at Avogadro's Number.

In actuality, the contest ended before the river actually hit its highest flow. We know because on July 1st it exceeded 4020 cfs and it may yet flow even higher. But we set up our contest to end on June 30th and the winning guesses had to fall within the contest period. Thank you all for entering!!

The contest winners are:
