NWO-2003-80509-DEN

Posted: 6/30/2015

Expiration date: 9/3/2015

The U.S. Army Corps of Engineers, Omaha District, is extending the comment period for the Supplemental Draft Environmental Impact Statement (EIS) for the Northern Integrated Supply Project (NISP). In accordance with 40 C.F.R. 1506.6, the USACE published a Notice of Availability for the NISP Supplemental Draft EIS in the Federal Register on June 19, 2015. In addition, the USACE posted a matching Public Notice on the Omaha District Regulatory web site. The Federal Register Notice and the Public Notice identified the length of the public comment period as 45 days, concluding on August 4, 2015.

Since publishing the Notice of Availability and the Public Notice, USACE has received a number of requests to extend the comment period. After reviewing these requests, an extension of an additional 30 days is warranted. The extended comment period will close on September 3, 2015.

For more information, call: 303-979-4120
